Proton Motor Power Systems PLC

10 August 2020

### **Proton Motor Power Systems plc**

("Proton" or the "Company")

### **New order - Shell New Energies**

Proton Motor Power Systems plc (AIM: PPS), the designer, developer and producer of fuel cells and fuel cell electric hybrid systems with a zero-carbon footprint, announces that, it has received a first order from Shell New Energies for a fuel cell hybrid system intended to power Shell's own line of portable hydrogen refueling units for buses and trucks.

The first fuel cell system of this type will be used in an off-grid and portable refueling unit, which will be deployed as part of a joint project between Shell and a major European truck manufacturer and is intended to refuel trucks with hydrogen on a test track.

#### **About Proton Motor Fuel Cell GmbH**

Proton Motor has more than 20 years of experience in Power Solutions using CleanTech technologies such as hydrogen fuel cells, fuel cell and hybrid systems with a zero carbon footprint. Based in Puchheim near Munich, Proton Motor offers complete fuel cell and hybrid systems from a single source - from the development and production through the implementation of customized solutions. The focus of Proton Motor is on back-to-base, for example, for mobile, marine and stationary solutions applications. The product portfolio consists of base-fuel cell systems, standard complete systems, as well as customized systems.

Proton Motor serves IT, Telecoms, public infrastructure and healthcare customers in Germany, Europe and Middle East with power supply solutions for DC and AC power demand. In addition to power supply, SPower also offers solutions for Solar Systems as well as a new product line for Solar Energy Storage.

Proton Motor Fuel Cells GmbH is a wholly owned subsidiary of Proton Motor Power Systems plc. The Company has been quoted on the AIM market of the London Stock Exchange since October 2006 (code: PPS).
